Decided to review August meeting minutes in October session

No public input

No applications for new designations or certificates of appropriateness submitted

Liaison Report:

- Meeting with town Supervisor on Pioneer House and Blacksmith House. Evaluation done on structure for floor reinforcement. Town reached out to structural engineer but no word if there any updates on any follow up meetings.
- Printing pamphlets: no updates

Old Business:

690 Titus Ave lawsuit update: property has been sold to new owner and pending litigation is still open and being argued within the courts. Still no word if case will be dismissed

New Business:

Town Historic Survey: IHPC and Historical Society will provide volunteer resources

- pointing out properties as historic
- taking picture inventory of houses

- volunteers to get project info sheets
- potential t-shirts and apparel

Wimbledon Road – National Registry:

CB and Town Historian met with Supervisor about signage grant marking the district> It is also mentioned that may be able to do this in-house through public works for signage

Grant would come from William Pomeroy Foundation for signage (town would be responsible for purchasing and installing concrete post). Sign would likely go in public right-of-way.

MJ asked how much signs would cost; SC asked if sign will be replicated for all future districts.

Town Code Project:

MJ revised code update. Went through all the docs he was supposed to review and revise. He said he has to go through one last final review to make sure he caught everything, and then he will forward to town (which will do their final review).

- It was suggested by MJ that IHPC should all do one last review before we present final version to town.

Local Goings On: no new updates

Meeting Adjourned: 8:02PM
